ALONGE OLAMIDE SAMSON

Machine Learning Engineer | Data Scientist | NLP alongeola16@gmail.com | Nigeria
LinkedIn: linkedin.com/in/alonge-olamide-493237242 | **GitHub:** github.com/Olamieee | **HuggingFace:** huggingface.co/Olamieee

PROFESSIONAL SUMMARY

Machine Learning Engineer and Data Scientist with experience building and deploying NLP and predictive-modelling systems across healthcare, security, education, and language technology. Strong in fine-tuning transformers, including on low-resource and African-language text, with two published preprints and a released HuggingFace model. Proficient in Python, with an active open-source portfolio. Available for full-time remote roles and freelance projects.

CORE COMPETENCIES & TECH STACK

- **Machine Learning & Deep Learning:** Scikit-learn, TensorFlow, Keras, PyTorch, XGBoost, Neural Networks
- **NLP & Transformers:** HuggingFace Transformers, AfroXLMR, AfriBERTa, Fine-tuning, Text Classification, Sentiment Analysis, Cross-lingual Transfer
- **Programming & Data:** Python, SQL, Pandas, NumPy, Matplotlib, Seaborn, Feature Engineering, Data Cleaning
- **Deployment & MLOps:** Flask, Django, Streamlit, REST APIs, Git/GitHub
- **Soft Skills:** Research Documentation, Technical Writing, Analytical Thinking, Cross-functional Collaboration

WORK EXPERIENCE

Machine Learning Engineer | *Freelance (Remote)* | Feb 2022 – Present

- Built and deployed a Kinyarwanda hate speech and sarcasm detection platform using AfroXLMR-mini, serving community moderators with role-based dashboards and explainable predictions. **Tech:** Python, Flask, HuggingFace Transformers, Scikit-learn, NLP
- Developed a multilingual sentiment analyzer supporting English, Yoruba, and Nigerian Pidgin across 3 typologically distinct languages, handling code-switching and low-resource challenges. **Tech:** Python, HuggingFace Transformers, Multilingual Modelling
- Delivered 10+ client ML projects including churn prediction, spam detection, and sentiment analysis, with full documentation and deployment. **Tech:** Python, Scikit-learn, Flask, TensorFlow, Pandas, NumPy

Software Automation Engineer | *Crown Polytechnic, Ado-Ekiti* | Sept 2025 – Jan 2026

- Developed an automated ethical clearance certificate system, reducing certificate generation time by eliminating manual document creation for 100+ researchers.
- **Tech:** Google Sheets, Google Docs, Google Apps Script, Gmail

Software Automation Engineer | *Bamidele Olumilua University of Education, Science & Technology (BUESTI)* | Sept 2024 – Dec 2025

- Built an end-to-end automated research compliance workflow integrating Google Forms, Sheets, Docs, and Apps Script, eliminating manual data entry for research administration staff.
- **Tech:** Google Sheets, Google Docs, Google Apps Script, Google Forms

NOTABLE PROJECTS

Yoruba Multilabel Emotion Detection | *Independent Research* | 2025 – 2026

- Fine-tuned AfroXLMR-base on the SemEval-2025 Task 11 Yoruba dataset for multilabel emotion detection across 6 emotion classes, achieving a macro F1 of 0.40 on the official 3,000-sample test set (majority-class baseline: 0.165).

- **Tech:** Python, HuggingFace Transformers, AfroXLMR, PyTorch

Kinyarwanda Hate Speech & Sarcasm Detection Platform | *Freelance*

- Fine-tuned AfroXLMR-mini to classify Kinyarwanda text as hate speech, sarcasm, or normal; deployed with role-based dashboards and explainable predictions for community moderators. **Tech:** Python, Flask, HuggingFace Transformers, Scikit-learn

Spam Classification Systems | *Independent* | 2023

- Built SMS spam detection (Random Forest) and email spam filtering (Multinomial Naive Bayes), both with TF-IDF preprocessing, achieving high precision and recall. **Tech:** Python, Scikit-learn, TF-IDF, NLP

Churn Prediction & Dry Bean Classification | *Client Projects*

- Delivered ML solutions for customer churn prediction and multi-class agricultural product classification, with full documentation and deployment. **Tech:** Python, Scikit-learn, Pandas, NumPy, Data Visualization

IGA HIFADHI — Student Subject Recommendation System | *Client Project, Kigali, Rwanda* | 2024

- Designed and deployed a web platform recommending academic subjects to students based on IQ assessments, personality profiling, and compatibility scoring, for a live client. **Tech:** Python, Django, Scikit-learn, PostgreSQL

Malaria Diagnosis with Neural Networks | *Freelance* | 2023

- Built and benchmarked MLP and RBF Network models to diagnose malaria from clinical datasets under limited data conditions. **Tech:** Python, TensorFlow, Scikit-learn, Streamlit

Ransomware Detection System | *Freelance* | 2022 – 2023

- Developed a real-time ransomware classifier using Random Forest on PE file features, with live file monitoring and Arduino hardware alerts. **Tech:** Python, Streamlit, Scikit-learn, Arduino

PUBLICATIONS

- Alonge, O. S. (2026). *Multilabel Emotion Detection in Yoruba: Fine-tuning AfroXLMR on SemEval2025 Task 11*. Zenodo Preprint. zenodo.org/records/20356810 — Model: huggingface.co/Olamieee/yoruba-emotion-model
- Alonge, O. S. (2026). *Credit Risk Assessment Using Machine Learning: A Comparative Study with Fairness Analysis.* Zenodo Preprint. zenodo.org/records/20524242

EDUCATION

B.Sc. in Computer Science | Federal University Oye-Ekiti, Nigeria | Sept 2024

- **CGPA:** 3.79/5.0 (Second Class Upper Division)
- **Thesis:** Text-Based Emotion Detection Using Random Forest Classifier — classified 13+ emotion categories from text using TF-IDF feature extraction and supervised ML pipelines

TECHNICAL SKILLS

- **Programming:** Python, SQL
- **ML & AI:** Scikit-learn, TensorFlow, Keras, HuggingFace Transformers, Neural Networks, XGBoost
- **NLP:** Text Classification, Sentiment Analysis, TF-IDF, Fine-tuning, Cross-lingual Transfer, Multilingual Modelling
- **Data:** Pandas, NumPy, Matplotlib, Seaborn, Feature Engineering, Data Cleaning
- **Deployment:** Flask, Django, Streamlit, REST APIs
- **Automation:** Google Sheets, Google Apps Script, Google Forms
- **Tools:** Git, GitHub, Jupyter, VS Code, PostgreSQL
- **Languages Spoken:** English (fluent), Yoruba (native), Nigerian Pidgin (fluent)

CERTIFICATIONS & TRAINING

- Cisco Networking Academy — Data Science Essentials with Python
- GDSC and I4G Data Science Bootcamp
- Forage BCG X Data Science Job Simulation
- LearnTube Certified Machine Learning Core Essentials
- Google Coursera Crash Course on Python
- SkillUp by SimpliLearn — PostgreSQL
